

DRAGON GRIPS PRECISION TRACKS

The precision tracks are a designed by Guy Micheletti – making for a new concept in tracking!

Our tracks can be used both with either crane or dolly. Standard sizes of 6 meters (20 feet), 3 meters (10 feet) or 1.5 meters (5 feet) lengths...sizes in between are also available.

The beauty of these tracks is the lack of cross pieces. Therefore, you can use the tracks in multitude of widths, benefiting the actor walking down the middle without a thought of having to step over cross pieces. It also makes for easy pushing, smoother ride (due to less joiners) and lightweight.

USA Patent Pending
RSA Patent 2009/08746

Price Available on Request
Set of 6 Meter (20') Length
Set of 3 Meter (10') Length
Set of 1.5 Meter (5') Length
Spreader & Other Sizes Possible
